

# Advance notice for call for surveyors (2022)

We are looking for freelance experts for agri-environmental field surveys.

EFTAS Fernerkundung Technologietransfer GmbH is one of the leading pan-European service providers for the collection and processing of agri-environmental information, landscape statistics and biodiversity monitoring since decades. Here we work at the interface of modern Satellite Earth Observation with GeoIT and smart mobile, in-situ data collection via app and professional management through training, coordination and quality control & assurance. The whole processes are embedded in established workflows with data pre- and post-processing, as well as data evaluation and analysis if required.

In this exciting field of work, we want to strengthen our network. We are preparing for recent and forthcoming opportunities in Germany and within our EU-wide network. Depending on professional qualifications and availability in terms of time and space, different survey application areas are available in 2022.

Our offer is directed to **graduates** and **students** with preferred focus on vegetation mapping, plant production or alike as well as the general disciplines BIO / GEO / ECO / AGRI or similar (with B.Sc. or higher).

The periods of operation range from **April to September 2022** and can cover periods of several weeks (within April to June) to 5 months (April to September), depending on the field of activity.

Good knowledge of English in word and writing is a precondition. A driver's license is also required for field work.

Requests can be made at [insitu-surveys@eftas.com](mailto:insitu-surveys@eftas.com) informally, but an **English europass CV** (<https://europa.eu/europass/en/create-europass-cv>) as well as **proof of practical survey experience** and **former job certificates / references** are required for further consideration of the application.

More details will be provided upon request.

Requests can be made informally at:

*EFTAS Fernerkundung  
Technologietransfer GmbH  
Oststraße 2-18  
D-48145 Münster  
Tel.: +49-(0)251-13 30 70*

*E-Mail: [insitu-surveys@eftas.com](mailto:insitu-surveys@eftas.com)*

Needed application documents:

- English europass CV (<https://europa.eu/europass/en/create-europass-cv>)
- proof of practical survey experience
- former job certificates / references

released: 19.11.2021

Using smart  
GeoIT, we perform  
large-scale in situ field  
surveys e.g. for  
agri-environmental  
monitoring or landscape  
assessment.  
Be part of it!
